

Departmental Activities

Seminars:

The department has conducted seminars by involving the students as presenters. It is for the benefit of the students to learn the subject in depth and to develop the communication skills. The seminar topics were chosen from third year syllabus.

The following III. B. Sc., students gave the seminars during 28th - 30th March 2011, with enthusiasm and interest:

1. Mr. TVD Sai Ram Tarun Kalla on the topic "Eigen value and Eigen functions".
2. Mahesh Allu on the topic "Hydrogen Atom and Schrodinger Equation".
3. Naveen Kanth Dandumenu on the topic "Solutions and Schrodinger Equations".
